

PRIYANI KUMARI

+91-9667780277 | 1304priyani@gmail.com | [Linkedin](#) | [Github](#)

Computer Science undergraduate student with hands-on experience in web design, web development, and building real-world projects. Passionate about programming, problem-solving, and learning new technologies. Skilled in JavaScript, React, and Git/GitHub. Regularly practices Data Structures and Algorithms to strengthen logical thinking and coding skills. Eager to apply technical knowledge and contribute to impactful projects.

EDUCATION

IITM College of Engineering	CGPA/%
Bachelor of Technology in Computer Science and Engineering(2023-2027)	7.6
Jinvani Bharti Public School	
X th (2020)	80%
Adarsh Jain Dharmic School	
XII th (2022)	79%

SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, SQL
- **Development:** HTML, CSS, React, Node.js, Express.js
- **Databases:** MongoDB
- **Tools & Technologies:** Git, GitHub, VS Code
- **CS Fundamentals:** DBMS, OS, CN, DSA, ML

PROJECTS

React Food App

- Developed a responsive food ordering web application with dynamic menu rendering, cart management, and reusable React components.
- Used Context API to manage app data easily and created a smooth and simple experience for users while ordering food. [Project Link](#)

AI Trip Planner

- Built an AI-powered travel planning application that generates personalized itineraries, hotel recommendations, and day-wise travel plans based on user preferences.
- Integrated AI services, Firebase database, and map-based location features to enhance trip planning and user experience. [Project Link](#)

Pacman Game

- Developed a browser-based Pacman game from scratch using JavaScript and HTML, CSS, featuring smooth character movement and real-time rendering.
- Implemented collision detection, ghost movement logic, score tracking, lives management, food collection, and game-over/restart functionality. [Project Link](#)

EXPERIENCE

Web Developer Intern | Dhirati Education

- .Contributed to building and improving web features to improve user experience for an education platform.
- .Gained hands-on experience in frontend development, debugging, and optimizing web performance.

INTERNHUB | IITM

- .Worked as a Technical Executive in the Placement Cell, contributing to the development of the official website.
- .Collaborated effectively with team members and ensured smooth coordination throughout the events.

ACHIEVEMENTS

Matrix-Hackathon

- Worked with a team to build a solution for a real-world problem
- Took part in idea generation, planning, and development during the hackathon.
- Improved teamwork, communication, and problem-solving skills while working within a limited time.

SIH Internal Hackathon

- Developed an Android-based application to promote proper waste disposal and recycling.
- Worked on features such as waste identification, pickup requests, and user rewards, strengthened skills in **UI design**, and **problem-solving under time constraints**.

Certificates:

- . **Generative AI** . Online hackathon participation
